

Cannondale Trigger Carbon 1

STAND C41

the cycle show

www.cannondale.com

RANGE FROM £3,999.00

All mountain and all day – with a killer new dual-mode, dual travel shock, and its Ai-driven all-mountain attack geometry, the all-new Trigger lives for big days in the mountains where sustained efforts lead to sublime rewards. Built for those ready to go all out – is this the best handling bike built for UK trail centres? See Cannondale's Trigger range on stand C41.

GT Sanction Pro

STAND C41

the cycle show

www.gt bicycles.com

RANGE FROM £2,499.00

In Enduro events you win the race based on your total descent time over multiple stages, so the logic of building an Enduro bike based on championship-winning gravity bike is obvious. With 165mm travel and weight saving design based on the Fury, the Sanction is a winning recipe – perfect for UK trail centres and more – see the new GT Sanction range on stand C41.

Vitus Sommet CRX – Carbon X01 Eagle

STAND H131

the cycle show

www.vitusbikes.com

£3,699.00

The brand new Sommet is longer, lower and stacked with an incredible build package. Built for hammering technical downhills, then climbing with efficient power and traction for another run. If you're aiming for the enduro podium or taking it to the limits on your favourite trails then the Sommet is with you all the way.
